The exceptions are planned residential developments, row commercial development, subsidized elderly housing, planned business developments, community facilities, building and construction trade shop or garage uses, public utilities, accessory single-family dwelling units (ADUs), and accessory commercial dwelling units (ACDUs) that comply with all provisions of §§ 179-42.2 and 179-42.3, respectively. ~~ADUs may be permitted by right in the R-L, R-M and R-R zoning districts on lots of 30,000 square feet or greater, by Special Permit in these districts on lots less than 30,000 square feet, and by Special Permit in the C-H, V-B and I zoning districts.~~ Also, residential lots may contain two ~~principal~~ single-family ~~detached dwellings units~~ if the lot is twice that required by the Table of Area Regulations for single-family ~~dwellings residences~~ in that district and if each ~~dwelling unit~~ is provided proper street access.
- ² The width of the lot, measured at the front yard setback line, shall be at least 80% of the lot frontage.
- ³ At each end of a through lot, there shall be a setback depth required which is equal to the front yard depth required for the district in which each street frontage is located.
- ⁴ No building, except a boathouse or building used for agricultural purposes, shall be within 50 feet of any water body, watercourse or wetland area or, if subject to flooding, within 50 feet beyond its flood line to the higher elevation.
- ⁵ Projections into required yards or other required open spaces are permitted subject to the following:
Balcony or bay window, limited in total length to 1/2 the length of the building, not more than two feet.

These distances should be used as though each structure is set on a separate lot. For example, two structures sitting side by side would have side yard clearances each of 30 feet or a total of 60 feet between the structures.
- ⁸ Intensity of use applications to nursing convalescent home. For purposes of interpreting the portion of this chapter, the term "unit" shall mean each bed designed for use by an individual receiving care at such facility. In all districts where such use is allowed, including by special permit, each additional unit shall require a minimum of 4,000 square feet of land area. Front, side and rear yard requirements within the respective districts where special permits are required may be increased at the discretion of the Board of Appeals, if the size of the project, proximity to incompatible adjacent uses or other factors potentially having an adverse effect on the health, safety or welfare of the persons under care at such facility justifies a more extensive buffer from property lines. The Board of Appeals shall ensure that egress from such facility shall be on a street which should be safe and adequate.

9 No building, loading space, parking space or structure, other than a sign, shall be located within 200 feet of the Industrial District boundary line in an Industrial District.

The lots) shall be used for single-family residential purposes.

The area of the access to the lot as determined by the Planning Board shall not be used in determining lot size.

Multiple use of this section of this chapter shall not be used as a means of accomplishing the subdivision of land without the construction of ways.
